

FEBRUARY 2018 NEWSLETTER

Because of your generous support we are gearing up for an amazing year in Haiti!

Through your financial support we will be adding new initiatives to our current work in Haiti - all to benefit children and families. Here is a quick update on how we are putting your generosity to work.

Our NEW and IMPROVED 2018 Plans Include:

ADOPTION

- Moving our adoption process from 3 years to under 2 years.
- Continuing to admit orphans and abandoned children. This month we admitted 4 new children, Marie Fleur is one of them.

COMMUNITY DEVELOPMENT

- We are in the initial discussions to launch an agriculture program in Massikot. The goal of this program is to empower families to produce their own crops and raise their own livestock - a step towards sustainability.
- Building a New Church in Gonaives - this will be home to a feeding program for 250 children and become a hub for our communities in the L'Artibonit Region. This project is currently in design plans.

EDUCATION

- Our goal to Preserve Families by coming alongside parents to help them rise out of survival mode. By providing feeding programs and medical care we can assist families where they need it the most. In 2018 we will also be working to assist with children's education and currently have started by supporting small schools in 3 church villages.

FEEDING PROGRAMS

- Again, thanks to your generosity we plan to move to feeding children 4 days a week in 4 of our most difficult sites.
- Your support has also enabled us to ship 3 containers of food during the 1st quarter of 2018.

MEDICAL CLINIC

- Providing mobile clinics 2 times a year to our remote regions. The 1st mobile clinic of 2018 will focus on 4 church communities in the south during the last week of February.

WOMEN'S EMPOWERMENT

- Continue to train women and help them achieve economic security for their families. Partnering with Medical Clinics to sell our Zel Medical Scrubs.

Each month we will be sending you an update on each of these efforts. To demonstrate how your support is making a difference in the lives of thousands of children in Haiti. Thank you for your generosity.
