Due to your love and support, Chances for Children has continued our mission to provide **HOPE** to families in Haiti.

We do this through an array of programs such as orphan care & adoption, education, feeding programs, medical/dental care, church & community development, agriculture training, and women’s empowerment.

These programs help communities move from **Survival** mode to **Stability** and ultimately onward to **Sustainability**.
Hello from all of us at Chances for Children.

While the overall situation in Haiti continues to remain bleak, Chances for Children continues to be a light in the darkness. In 2021, Haiti dealt with a barrage of problems: continued challenges with COVID-19, the assassination of the President, a 7.2 earthquake, double digit inflation, political unrest, escalation in kidnappings and gang violence. While these challenges plagued the country, it didn’t stop C4C and our diligent staff in Haiti from continuing to provide life giving services to over 8,000 children in the country. This report will outline each of the ways we have continued to serve children and families in the most difficult of years.

We are very grateful for each of you reading this report who have donated, served and prayed right alongside us. None of this would be possible without you. God’s grace continues to protect our team in Haiti and our ability to provide the necessary funds and leadership to oversee God’s work. While it is still not secure to bring Mission teams to Haiti, we hope this report will provide you with a glimpse of how your involvement with C4C continues to uplift Haitian families. Our prayer is that by mid year we can begin to have you back in Haiti to see first hand how your generosity is truly transforming the lives of so many children and families.

Thank you for all the ways you come alongside us.

Kathi Juntunen
Founder, Chances for Children
There are over 35,000 children outside of parental care in Haiti and 30,000 children living in orphanages. (UNICEF & CNN)

3.6 million Haitians are food insecure and 1.5 million are severely food insecure. (World Food Program)

Haiti ranks among the 5 worst countries in the world in daily caloric intake per person. (theworld.org)

3/4 of the Haitian population lives on less than $2 per day and 1/2 of the population earns less than $1 per day. (World Food Program)
### ESSENTIAL CARE

**Provided for Haitian Children & Families Throughout 2021!**

Chances4Children.org
The Creche (orphanage) provides a stable and loving home for the children while they await joining with their forever families!

siblings Jeff and Sheelove were brought to Chances for Children’s creche by their single father when they were 10 months and 4 years old. Their dad tried to make ends meet by farming the land and selling produce but he knew he simply could not support four children. Desperate and dreaming of a better life for his two youngest, he turned to C4C for help. C4C welcomed the children and watched Jeff learn to walk, talk and explore and Sheelove attend school for the first time. In March of 2020, they were matched with their forever family. Quarterly Zoom sessions allowed everyone to get to know each other when COVID-19 and security issues stopped travel. Today Jeff and Sheelove are with their forever family and thriving in their home environment!
Feeding Programs

C4C supports 14 villages & 9 partner organizations/orphanages/churches.

1,310,000
MEALS PROVIDED
(8,530,000 meals to date)

5,300
CHILDREN FED

23

A 4-compartment latrine was built in Derriere Puit, providing the first toilets to the village. This will greatly improve sanitary conditions.

C4C partners with Feed My Starving Children and Food for the Poor to send containers of Manna Packs which provide over 1 million nutritional meals a year.

Reanette is a single mother of 7 children, including 4 girls and 3 boys with ages ranging from 5 to 18, who have been part of our Gonaïves feeding program for 5 years. These meals have lifted a large burden for her, as feeding 7 kids on her own is no easy task. Reanette has a hard time finding work, especially with the current situation in Haiti. There are few employment opportunities, minimal support from family members, and the cost of food continues to rise.

Taking precautions against COVID-19, the clinic remained fully operational in 2021. Unfortunately, we were unable to utilize C4C Mobile Medical Clinics due to the pandemic and continued unrest in Haiti. Many children in the remote villages depend on these free medical services, as their families cannot afford or access the limited medical services in their area. It is our hope that we will be able to return to mobile medical clinics in late 2022.

C4C partners both Vitamin Angels (for donated vitamins) and Middle Ground (a malnutrition center).

The dental clinic provides preventive care, diagnostic care, basic restorative care, and other minor dental procedures. The dental clinic follows the established standardized COVID-19 procedures for all patient care. A child’s oral health is just as important as their physical health in their growth and development!

C4C partners with Highlands Church to operate the clinic.
The schools & students in Haiti continue to thrive and grow with the amazing support of our donors!

“One of the biggest changes we’ve seen in our community is that we have a higher literacy rate. Because of the school, the kids are learning to read and therefore able to participate in church. Some of the students are even beginning to teach Sunday School classes and reading scripture for the church. Much of the older generation is unable to read so this is great for the community” – Pastor Bienaise of Caporal

Denise began sewing for Zel Haiti in 2015 when this program started. Her husband is a deacon in the church in Kenscoff and it was through word of mouth that we discovered that she was in need of employment. Together, they have 3 beautiful children and they just welcomed their first granddaughter in 2021. When Denise began in the program, she didn’t know how to operate a sewing machine at all. In her 6+ years of employment, she has grown into a strong and confident seamstress.
Edith was formerly an artisan in our jewelry program, but found herself without employment when we needed to downsize the program in 2020. She was interviewed and accepted into the business training program with hopes of supporting her family business raising cattle, which is expensive with many risks involved. Upon receiving the business loan, Edith and her husband were able to invest the money into their business, allowing it to grow to help them support their seven children ranging in age from 1 to 23. The ongoing issues in Haiti have been challenging for her family and business. Still, they continue to work hard and are in a more financially stable position than before.
NEW FAMILIES ADDED TO THE PROGRAM

Your gifts continue to be a blessing to the Haitian people and have enabled us to continue the expansion of our Agricultural programs in 2021! In the village of Massikot, we continued our training, seed distribution, and goat care, which moved our 150 agricultural families in the program even closer to sustainability. Families are breeding their own goats and working together to plant, care for, and harvest their own crops, so they can feed their families and sell them at market. Lives are being changed, families are sustaining themselves, and more exciting work is on the horizon!

Thank you to Hope Seeds International for providing seeds for hundreds of additional families throughout our communities for growing vegetables in their own family gardens.
COVID-19, domestic fighting, kidnapping and the economic situations played a big role against the growth of the Churches but despite all of the hardships, the church provided a very joyful outcome.

Thank you to everyone who has been very supportive to this Ministry!

The hardships of Haiti unfortunately did not get easier throughout 2021 and in fact worsened. Due to the extremely unstable political climate, C4C was not comfortable allowing mission teams to travel. We are hopeful the situation in Haiti will become safer and allow us to slowly welcome Mission team travelers back in 2022!
We can’t thank you - our AMAZING supporters - enough for making the 2021 Night of Hope the most successful one yet! We are so blessed and blown away by the unbelievable generosity that allows us to continue our mission to provide HOPE to children & families in Haiti.

We can’t wait to see you again at our 10th Annual Night of Hope this year at the Fairmont Scottsdale Princess on Saturday, October 8th!

If you are interested in purchasing a table for you and your guests, please contact sarah@chances4children.org.
